EDUCATION

BS COMPUTER SCIENCE
University of Karachi (UBIT)

February 2022 - Present

TECHNICAL SKILLS

Programming: Html, CSS, JavaScript / TypeScript, jQuery, C/C++, OOP, Python.

Databases: Firebase, Supabase.

Frameworks: Bootstrap, Tailwind.

Tools & Paradigms : Gitlab, GitHub, Agile, Debugger.

Soft Skills : MS Office, Canva, Postman API Testing

PROJECTS

Clone Tesla Website Design

- I've just completed a responsive clone of Tesla's website using HTML and CSS.
- This work was a fantastic learning experience, allowing me to hone my web development skills and dive deep into responsive design.

Clone Zomato Website Design

- Successfully completed a Zomato website clone using HTML, CSS, and Bootstrap.
- This project pushed my skills and deepened my understanding of responsive web design.

Clone Discord Website Design

- Just wrapped up a clone of the Discord website using HTML, CSS, and Bootstrap.
- This project was a great way to apply what I've learned at SMIT and sharpen my web development skills.

Clone Olx Website Design

- User designed an OLX-inspired website with a focus on user-friendly navigation and responsive layouts.
- The design includes features for listing, searching, and filtering products efficiently.

Quiz App

- A dynamic Quiz App built using HTML, CSS, and JavaScript
- Test your knowledge in HTML, CSS, and JavaScript with an intuitive, user-friendly design and interactive functionality

Weather App

- I developed a weather app that displays real-time weather information.
- The app utilizes an API to fetch and display data such as temperature, humidity, and weather conditions.

EXPERIENCE

Frontend Developer Intern Oct 2024 - Nov 2024
Prodigy InfoTech

- Successfully developed and deployed dynamic web applications, including a **counter app**, **image gallery website**, **to-do list**, and **calculator**, showcasing strong technical expertise and attention to detail.

• Enhancements:

- Implemented interactive user interfaces using JavaScript, enhancing user experience with responsive designs.
- Optimized application functionality by integrating modular components, reducing development time by 25%.

• Production:

- Implemented interactive user interfaces using JavaScript, enhancing user experience with responsive designs.
- Optimized application functionality by integrating modular components, reducing development time by 25%.

Frontend Developer Intern Dec 2024 - Jan 2025
Code Alpha

- Designed and developed interactive web applications, including a weather app, random color generator, and countdown timer, ensuring seamless user interaction and responsive design.
- Gained practical experience in utilizing JavaScript and API integrations to fetch and display dynamic data in real-time applications.
- Focused on creating intuitive user interfaces and enhancing performance, achieving optimized and accessible designs across devices.

CERTIFICATION

Ongoing MERN Stack Development Training at SMIT

- Gaining hands-on expertise in MongoDB, Express.js, React.js, and Node.js to build full-stack web applications.

Wordpress Development

- Acquired comprehensive knowledge of WordPress development through self-directed learning on YouTube.

Data Science and Analytics

- Gained a foundational understanding of data science principles and analytical techniques through the HP LIFE.
