EDUCATION

BS COMPUTER SCIENCE
Benazir Bhutto Shaheed University

📅 February, 2022 - Present

TECHNICAL SKILLS

Programming: Html, CSS, JavaScript, C/C++, Python.

Databases: Firebase, Supabase.

Frameworks: Bootstrap, Tailwind.

Tools & Paradigms : Git, Gitlab, Github, Agile, Debugger.

PROJECTS

Clone Tesla Website Design
- I've just completed a responsive clone of Tesla's website using HTML and CSS.
- This work was a fantastic learning experience, allowing me to hone my web development skills and dive deep into responsive design.

Clone Zomato Website Design
- Successfully completed a Zomato website clone using HTML, CSS, and Bootstrap.
- This project pushed my skills and deepened my understanding of responsive web design.

Clone Discord Website Design
- Just wrapped up a clone of the Discord website using HTML, CSS, and Bootstrap.
- This project was a great way to apply what I've learned at SMIT and sharpen my web development skills.

Clone Olx Website Design
- User designed an OLX-inspired website with a focus on user-friendly navigation and responsive layouts.
- The design includes features for listing, searching, and filtering products efficiently.

Quiz App
- A dynamic Quiz App built using HTML, CSS, and JavaScript
- Test your knowledge in HTML, CSS, and JavaScript with an intuitive, user-friendly design and interactive functionality

Weather App
- I developed a weather app that displays real-time weather information.
- The app utilizes an API to fetch and display data such as temperature, humidity, and weather conditions.

EXPERIENCE

Frontend Developer Intern   January, 2025 - February
Prodigy InfoTech
- Successfully developed and deployed dynamic web applications, including a **counter app**, **image gallery website**, **to-do list**, and **calculator**, showcasing strong technical expertise and attention to detail.

- **Enhancements**:
  - Implemented interactive user interfaces using JavaScript, enhancing user experience with responsive designs.
  - Optimized application functionality by integrating modular components, reducing development time by 25%.

- **Production**:
  - Implemented interactive user interfaces using JavaScript, enhancing user experience with responsive designs.
  - Optimized application functionality by integrating modular components, reducing development time by 25%.

Frontend Developer Intern   December, 2024 - 2025
Code Alpha
- Designed and developed interactive web applications, including a weather app, random color generator, and countdown timer, ensuring seamless user interaction and responsive design.
- Gained practical experience in utilizing JavaScript and API integrations to fetch and display dynamic data in real-time applications.
- Focused on creating intuitive user interfaces and enhancing performance, achieving optimized and accessible designs across devices.

CERTIFICATION

Ongoing MERN Stack Development Training at SMIT
- Gaining hands-on expertise in MongoDB, Express.js, React.js, and Node.js to build full-stack web applications.

Wordpress Development
- Acquired comprehensive knowledge of WordPress development through self-directed learning on YouTube.
